About LEC.int

Welcome to Leaders Education Centre, your premier destination for academic excellence and personal growth in Qatar. We believe every student has the potential to excel and make a meaningful impact on the world. Our mission is to empower students through comprehensive educational support and skill development, tailored to meet diverse needs and international educational standards.

We specialise in personalised tuition for students seeking academic improvement and excellence, preparing them for critical exams like the SAT, LSAT, and A-levels. Our experienced educators help students gain the confidence and knowledge they need to succeed.

Beyond academics, we offer essential skills courses, including language training, coding, MS Office proficiency, digital marketing strategies and more. Our goal is to prepare students for the professional landscape.

Creativity and exploration are at the heart of what we do. We provide a vibrant space for students to discover and nurture their passions in graphic design, photography, branding, and art.

At Leaders Education Centre, we are more than an educational institution; we are a community dedicated to nurturing the leaders of tomorrow. Join us on a journey of discovery, growth, and achievement. Together, we will unlock your full potential and pave the way for a brighter future.

LED Course Overview

Our course supports your child's natural language acquisition through a multi-sensory approach that includes play, singing, dancing, painting, and most importantly, having fun.

We emphasize both language comprehension and fluent speaking. Through a variety of age-appropriate activities and educational resources, we gradually and steadily expand our students' vocabulary, enabling them to quickly engage in basic conversations and understand short stories in English.

As students progress, they naturally acquire foundational grammar skills, which we reinforce with targeted games and activities. We then introduce age and level-appropriate grammar, writing, and reading practices to further develop their language proficiency.

Our experienced instructors tailor lessons to meet the individual needs of each student, ensuring that every child receives personalized attention and support. We believe in creating a positive and encouraging learning environment where students feel confident to express themselves in English.

In addition to language skills, our program also focuses on building critical thinking and problem-solving abilities. By engaging in interactive and collaborative activities, students develop important life skills that will benefit them in their future academic and personal endeavors.

Why Learn English at an Early Age?

Teaching a second or foreign language to a child is challenging, as children undergo significant developmental changes that vary with age. Therefore, structuring English lessons for children aged 4 to 10 is crucial.

In the early years, children start developing language skills, enhancing their fine and gross motor skills, and learning social cues and overall communication.

Although children reach developmental milestones at different times, our team of experts designs each lesson uniquely to ensure our students achieve these milestones, thereby promoting effective language learning during childhood.

We employ several key strategies

01 Interactive Play and Activities

We incorporate interactive play, games, and activities that engage children in using English in fun and meaningful ways. This helps in building a strong foundation for language learning.

02 Age-Appropriate Materials

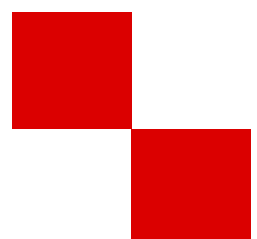

We use educational resources and materials that are tailored to the specific age group, ensuring that the content is both challenging and achievable for the students.

03 Multi-sensory Learning

Our approach includes visual, auditory, and kinaesthetic learning methods. This allows children to absorb language through various senses, making the learning experience more dynamic and effective.

04 Positive Reinforcement

We emphasise positive reinforcement and encouragement, creating a supportive environment where children feel confident to practice and improve their language skills.

Our Program

Our comprehensive program is designed to provide your child with a robust and enjoyable English learning experience. Each session is thoughtfully divided into two parts to ensure a balanced and effective approach to language development:

1. **Language Enrichment:** The first part focuses on expanding your child's vocabulary and sentence structures, boosting their confidence in speaking full sentences, and practicing speech in a supportive environment.
2. **Skill Development:** The second part is dedicated to enhancing gross motor skills, as well as reading and writing abilities, ensuring a well-rounded educational experience.

48 Engaging Classes

Each class is crafted to be both educational and fun, keeping your child motivated and excited to learn.

15 Diverse Topics

Covering a wide range of subjects to stimulate curiosity and broaden understanding.

100 Hours of Fun Education

A substantial amount of interactive learning time to reinforce and build upon language skills.

24-48 Phonics Mastery

Teaching 24 to 48 phonic sounds to lay a strong foundation for reading and pronunciation.

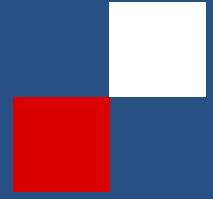

500 Extensive Vocabulary

Introducing 450-500 vocabulary words to significantly enhance your child's language repertoire.

50 Useful Phrases

Learning 40-50 different phrases for everyday use, helping your child communicate effectively in various situations.
