ABOUT US

Leaders Training Centre is Qatar's premier provider of comprehensive, high-quality courses, catering to personal and professional development needs.

With experienced trainers and a wide array of offerings in leadership, management, HR, finance, and beyond, we're trusted by individuals and organisations alike for practical, results-driven training solutions.

Our hands-on approach, diverse teaching methods, and exclusive partnership with the CFA Institute ensure impactful learning experiences. We've fostered strong relationships with reputable entities in Qatar, including Qatar Investment Authority, Baladna, The Commercial Bank, Oryx, Qatar Foundation Endowment, QAPCO, and QDVC, to meet their staff's professional development needs."

COURSE OVERVIEW

This training equips participants with the essential knowledge and practical tools to identify, analyze, and respond to project and organizational risks. It covers risk planning, qualitative and quantitative risk analysis, risk response strategies, monitoring and control, and integrating risk management into overall project governance. Through case studies, interactive discussions, and scenario-based exercises, participants will gain the confidence to proactively manage uncertainties and contribute to informed, risk-aware decision-making within their organizations.

Why companies need this training?

Minimize Project Failures

Helps identify and address potential risks before they escalate into costly problems.

Enhance Decision-Making

Equips teams with data-driven risk analysis tools for better project planning and execution.

Improve Compliance

Ensures adherence to industry standards, legal regulations, and stakeholder expectations.

Boost Project Success Rate

Reduces uncertainty and increases the likelihood of delivering projects on time and within budget.

OUTCOMES & DELIVERABLES

"Goals are the roadmap, outcomes are the destination; it's not just about the journey, but the destination we strive to reach."

Expected Outcomes

- Improved understanding of risk types, categories, and their impact on projects and organizations
- Ability to identify, assess, and prioritize risks using structured tools and techniques
- Clear understanding of roles and responsibilities in risk management within project teams
- Practical knowledge of developing risk management plans and integrating them into project planning
- Confidence in applying qualitative and quantitative risk analysis methods
- Enhanced decision-making skills through scenario-based exercises and case studies
- Familiarity with effective risk response strategies – avoidance, mitigation, transfer, and acceptance
- Improved monitoring and control of risks throughout the project lifecycle
- Better communication and documentation of risks using standardized protocols and registers
- Increased collaboration within teams to build a risk-aware culture in the organization

Deliverables

- Training handouts and reference materials
- Interactive exercises, case studies, and group activities
- Participant feedback and trainer evaluation forms
- Certificate of completion upon successful participation
- 20 hours online and offline training.
